Aguilera plans to put the lamp in a guest room.

## Monkey Shines

On her current tour, Christina Aguilera stayed at a \$1,450-per-night suite at the Hotel ZaZa in Dallas. It was there that she took a liking to a simian, falling in love with a monkey lamp perched on a desk. The smitten singer told a hotel staffer she wanted it and carried the fixture out at check-out time, asking a manager to add it to her bill. The hotel charged her \$500 for the lamp, manufactured by Stylecraft in Mississippi.
