The Hotel ZaZa Dallas officially opens The Bungalows this week.

The new accommodations consist of 12 one- and two-bedroom guest suites located on a private compound next to the main hotel. Six Bungalows occupy an existing historic house, and the other six are in a new building.

The Bungalows are designed to feel like a luxury residence, with no two having the same layout, interior design, or decorative objects, which the property's owner selected for these rooms. The Bungalows feature coastal décor, and most of them offer full kitchens and private porches.
